Hi Sarah,

I previously received a complaint from **Non-Responsive** but then on another call she indicated it was the fault of the company that captures the methane. Do you want to assign this or send it to the state?

Alleged Violator's Name: Arbor Hills Landfill - Advance Disposal  
Alleged Violator's Address: 10690 Six Mile Rd, Northville, MI 48168  
Alleged Violator's City: Salem Township  
Alleged Violator's State: Michigan  
Alleged Violator's Zip: 48168

Tip or Complaint: The Arbor Hills Landfill in Salem Twp. has been releasing so much landfill gas into the air that you can smell it within a 10-mile radius or more. We can't enjoy our yard. Our vehicles and homes are permeated with the odor. The local elementary school has to cancel recess and shut down the ventilation system. My family and many of my neighbors are experiencing frequent headaches, migraines and nausea. The odor has seriously decreased our quality of life. The landfill admits what is happening but they blame Republic Services. And the landfill wants to expand by 240 acres. I want to be certain the authorities that can grant approval for an expansion are aware of the current issues so the landfill is not allowed to expand. In fact, the landfill should be shut down until it can manage its current load. Why is this facility allowed to poison our air and still be in business?
